SUMMARY

Final-year student focused on machine learning and natural language processing.

SKILLS

Python, PyTorch, scikit-learn, NLP, Hugging Face, Pandas, NumPy, Git

PROJECTS

- Fine-tuned a Hugging Face transformer for customer-support ticket classification (F1 0.89).
- Built a resume parser with spaCy and scikit-learn as a college project.
- Trained a CNN in PyTorch for plant disease detection on 20,000 images.

EXPERIENCE

ML Intern, Example AI Labs (summer 2025): cleaned datasets and ran model experiments.

EDUCATION

B.E. Artificial Intelligence and Data Science, Example College, 2026
