SUMMARY

Backend developer with 2 years of experience building Python web services and REST APIs.

SKILLS

Python, FastAPI, Django, PostgreSQL, Redis, Docker, AWS, Git, Linux, PyTest

EXPERIENCE

Software Engineer, Example Fintech (2023 - present)
- Designed REST APIs in FastAPI for a payments dashboard used by 5,000 merchants.
- Modelled PostgreSQL schemas and tuned slow queries, cutting response time by 40%.
- Containerised services with Docker and deployed them to AWS ECS.
- Added Redis caching and wrote PyTest suites for every endpoint.

EDUCATION

B.E. Computer Engineering, Example Institute of Technology, 2023
