SUMMARY

Software engineer with two years of experience building web APIs and data tools in Python.

SKILLS

Python, FastAPI, Django, PostgreSQL, Docker, Git, Linux, REST API, PyTest

EXPERIENCE

Software Engineer, Example Analytics (2023 - present)
• Built REST APIs in FastAPI that serve reports to 3,000 customers.
• Moved nightly jobs into Docker containers and cut failures by half.
• Wrote PyTest suites and reviewed code for a team of five.

PROJECTS

• Expense tracker: Django and PostgreSQL with user authentication.
• Log analyser: Python command-line tool that summarises server logs.

EDUCATION

B.E. Computer Engineering, Example Institute of Technology (2019 - 2023)
